ABOUT ME

I am a passionate and self-driven Computer Engineering student at Pimpri Chinchwad College of Engineering, with a strong interest in software development, problem-solving, and building impactful tech solutions. I've worked on diverse projects ranging from voice-controlled writing machines to budget planning apps, and actively contribute to social causes through NGO participation and college events. With experience in Android and web development, a creative edge from freelancing in logo design, and a growing interest in AI and community leadership, I'm always eager to learn, collaborate, and innovate for real-world impact.

EDUCATION

2023 - 2027	Pimpri Chinchwad College of Engineering Bachelor of Technology, Computer Science
2021-2023	School of Scholars, Nagpur (CBSE)
2011-2023	Tomoae School, Amravati (ICSE)

EXPERIENCE

INTERNSHIP	Web Development Intern
CodSoft	Web Development Internship at CodSoft, where I built responsive and interactive websites & gained practical experience in collaborative coding environments, version control systems, and real-world web development workflows.

TECHNICAL SKILLS

- Programming languages :- C, C++, Python
- Databases: MySQL, MongoDB
- Object Oriented Programming using C++
- Active on HackerRank, LeetCode

KEY ACHIEVEMENTS

- Certification in Python, C++ And Data Structures & Visualization
- 5 stars in C++, Problem Solving on HackerRank Coding Platform.
- Participated in Smart India Hackathon, Spectrum '24, CESA-ACM's Anantya

PROJECTS

- Plant Disease Detection With AI by clicking its Photo (copyright filed)
